YELLOW FEVER

FOUR DEATHS IN MEMPHIS AND THIRTEEN IN NEW ORLEANS FOR THE TWENTY-FOUR HOURS ENDING LAST EVENING.

MEMPHIS, October 30.—Weather has cleared off bright and cool. From 6 o'clock last night until noon to-day the undertakers report orders for 8 internments of parties who died in and outside the city limits. All incoming trains last night were crowded with returning absentees.

SECOND DISPATCH.

MEMPHIS, October 30.—The Board of Health officially reported four deaths from yellow fever during the past twenty-four hours ending at 6 o'clock to-night. Five additional internments are reported by the undertakers of persons who died in the suburbs. Among those who died since last evening are Hugh Wheatley, Mary Agnes Harre, Rose Henniger, John V. Batto, Miss Sarah Jane Gilt. This morning several new cases were reported of parties who had been refugeeing back of the city but returned last week. W. J. B. Lonesdale and W. J. Chase, acting postmaster, are both considered in a critical condition. Camp Joe Williams was broken up.

To-day at noon those emancipated there returned to the city.

A telegram received to-night reports three new cases of fever at Coleriville, Tenn. The Howard Association here sent nurses in response to an appeal.

MOBILE.

Deaths from yellow fever for 24 hours, 4; new cases, 92.

MERIDIAN, MISS.

No abatement of yellow fever; funds are badly needed for relief of the sick and destitute. The Meridian Aid Association appeals for assistance.

CHATTANOOGA.

No deaths from yellow fever for 24 hours; five new cases, three colored. Weather clear and cold.

NEW ORLEANS.

NEW ORLEANS, Oct. 30.—Weather clear, windy and cooler; deaths, 13; new cases reported 84. Total deaths, 3,917; total cases, 13,036.

The recorder of deaths receives a number of letters daily from all points of the country making inquiries as to persons alleged to have died during the epidemic. For the past two days deaths from other causes have exceeded in number those recorded as having been caused by yellow fever. It is therefore probable the board of health at the regular meeting to-morrow will declare the epidemic at an end. The Howard officials are busy paying off nurses and issuing orders for transportation to those from Mobile who could not return home until a few days ago, on account of the quarantine against them.

JACKSON, MISS.

Fourteen cases and one death since noon yesterday. Weather clear and turning cold.

BATON ROUGE.

New cases, 10; deaths, 3. Weather clear and cold.

ANOTHER CASE AT GALLIPOLIS.

CINCINNATI, October 30.—Capt. Richard Blazer, famous during the war as leader of the Blazer scouts, died of yellow fever at Gallipolis, O., last evening. He had exposed himself to an attack in attending his brother's family, who were suffering from the same disease.

VICKSBURG.

VICKSBURG, October 30.—No deaths in the city; one in the country. Two deaths in Delta, and seven new cases reported at Bolton.

YELLOW FEVER STATISTICS.

TEXT IN FULL OF THE SURGEON-GENERAL'S CIRCULAR.

The following is the text in full of the circular issued by the surgeon-general: To Physicians and Others Residing in the Cities and Towns Visited by the Yellow Fever:

Acting upon the advice of members of the American Public Health Association, the surgeon-general of the Marine Hospital Service has organized a commission to gather and record all important facts relating to the commencement and spread of the present epidemic of yellow fever, with the view of establishing truths upon which the theory and practice of prevention of future epidemics may rest.

The gentlemen composing the commis-

## WASHINGTON LETTER.

WASHINGTON, D. C., Oct. 29, 1878.

The administration designs covering the south with radical special officers to "preserve the purity of the ballot" at the November election. The Attorney General says the number of deputy marshals that can be appointed under the law is unlimited, though special supervisors of election can be appointed only in cities of over 20,000 inhabitants. The duties of these specials are to revise registration lists, witness the election and count the ballots. When we get Democratic Congress this law with other relics of a time when the constitution was only so much waste paper, will disappear from the statute books immediately. Voorhees, who will unquestionably be elected to the Senate, and who instinctively abhors the very idea of federal encroachment upon the rights of states, will be the natural leader in the movement for repeal. He could ask for no better field for the exercise of his remarkable talents, and could in no other way do so much to harmonize the Democratic party. The Senate of 1879 will be one of unusual ability, and the Democrats will have no cause to be ashamed of the men they have sent to it.

Secretary Schurz speaks in Boston to-night, and will no doubt be listened to by a very large number of persons. He is known to dislike the idea of making political speeches while holding office, but has a constitutional incapacity for asserting himself in opposition to pressure from those around him. He would never have left the Republican party if the leaders had attempted to please him. But they never liked him, and they took no pains to conceal their dislike. He would never have rejoined the Republican party if leading Democrats had done anything to secure his services; but they disliked him.

I give for what it is worth—a rumor that Mr. Tilden has written, and will shortly publish, a letter in which he emphatically states that he will not, under any circumstances, take any part hereafter in state or national politics. I cannot learn whether the letter was written before or since the publication by the Tribune of the alleged dispatches concerning Florida's and South Carolina's electoral votes. It has been known for some time by the intimate friends of Mr. Tilden that he would not hereafter probably take any active part in politics, but this letter, if indeed it has been written, will be a surprise to them.

Most members of the Cabinet are back here and at their posts. The charming October weather of Washington should draw thousands annually to the city. If it were always October here no reasonable Cabinet officer would leave the city to make stump speeches. Mr. Schurz might do it, but he is a man of whims and caprices, and what he does cannot often be accounted for in a rational manner. Public sentiment has shown itself unfavorable to this speech-making by Cabinet officers and Presidents, and probably we have seen the last of it.

TWO NOTED GRAVE ROBBERS.—Our readers will remember the account given in these columns of the robbing of the grave of the Hon. Scott Harrison, in Ohio, last May, the body being found in the dissecting room of the Ohio Medical College. Public indignation justly brands any man as a scoundrel who will rob the grave of the dead. But there are two noted grave robbers in the country, so far from being the subjects of the people's wrath, are universally lauded for their virtues. The reason is plain. While the former class steal the dead bodies of our loved ones to submit them to the dissecting knife, these only rob the graves to restore the living victims to our hearts and homes. Their names—Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets—are household words the world over. The Golden Medical Discovery cures consumption, in its early stages, and all bronchial, throat and lung affections. Pleasant Purgative Pellets are the most valuable laxative and cathartic.

FACTORY FACTS.—Close confinement, careful attention to all factory work, give the operatives pallid faces, poor appetites, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out doors or use Hop Bitters, made of the purest and best remedies, and especially for such cases, having abundance of health, sunshine and rose cheeks in them. None need suffer if they will use them freely. They cost but a trifle. See another column.

FOR A GOOD HAIR FOR TEN CENTS A GOOD HAIR FOR TWENTY-FIVE CENTS, go to Henry Behring's barber shop, No. 142 Commercial Ave.

THE MALINE cures all forms of malaria such as chills and fever, bilious fever, swamp fever, etc. As a preventive, it is the best safeguard in cities where fevers are prevalent. It taken in time. Ask your druggist for Thermaline. Twenty-five cents per box. Mailed free on receipt of price by Dundas, Dick & Co., 87 Wooster street, New York.
